

Windows XP - EduRoam Wireless Setup

(Visiting academics from participating institutions can use EduRoam)

Double Click  on the task bar (*Bottom right corner of the screen*)

Click “ncl-uni-wifi-setup” from the list of Networks and

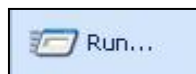

Click “Connect”

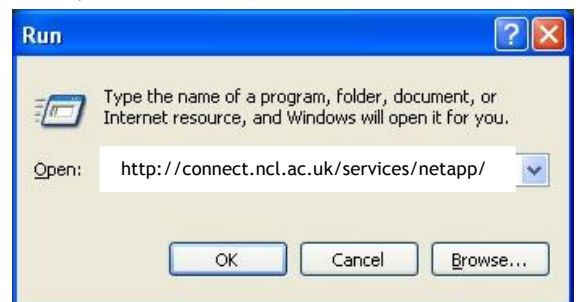

You are now connected to the Setup Wireless which lets you download the program to install the correct certificates for EduRoam Wireless. (You cannot use Setup wireless for normal web browsing)

Click the “Start Button”  (*Bottom left corner of the screen*)

Click on “Run”

Enter the following address then click “OK”
<http://connect.ncl.ac.uk/services/netapp/>

You will now be connected to the Connect page with a link to the Campus Network Setup program; click the  button and save the file.

Locate the Campus Network Setup program and double click on it

Click “Wireless” Tab

Select “EduRoam”

Enter your **User name** and **Password** from your **host institution**, and remember to include your domain as part of your login name, e.g.
b1234567@ncl.ac.uk
q991234@northumbria.ac.uk

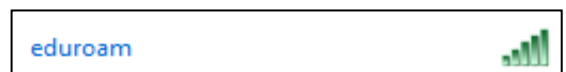

Click “Install”

Connect to “EduRoam” wireless access point

Double Click  or  on the task bar (*Bottom right corner of the screen*)

Click “**EduRoam**” from the list of Networks.

Click “Connect”

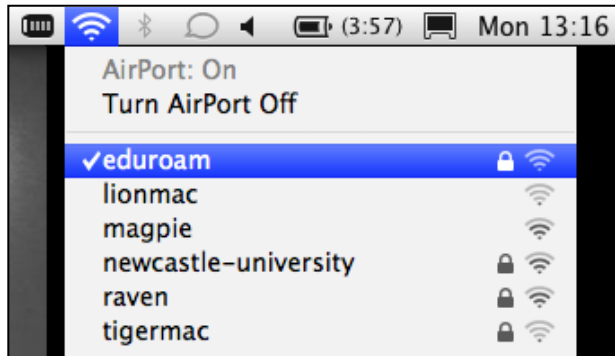

If you still have problems; Network Connection Clinics are in the Old Library Cluster room Monday-Friday 10am-4pm
