This edition of the Fees Schedule is, as far as possible, accurate and up-to-date at the time of publication. The University, however, reserves the right to make changes to regulations and fees without notice.

The Fees Schedule can be read online, in .pdf format, at http://www.ncl.ac.uk/regulations/fees/
1. FEES

Introduction
This document contains information about the fees for our programmes of study for the academic year 2007/2008. However, please note that the fees stated are for 2007/2008 ONLY. Fees are payable for each year of your programme of study, unless stated otherwise (eg fee per 10-credit module), and are likely to increase in subsequent years.

Students studying English Language, Foundation or Pre-Master's programmes at INTO Newcastle University should refer to the information provided by INTO Newcastle University.

Changes to Fees
New undergraduate and PGCE home/EU students, and those who commenced study in 2006/2007, will be charged a tuition fee of £3,070. Students already studying at the University prior to 2006/2007, or those who deferred their entry from 2005 to 2006 and who received their offer for their course before 1 August 2005, will be charged £1,225.

Continuing students and deferred entry students liable to pay the fee of £1,225 should refer to their Local Authority (or equivalent body) for information about means-tested financial support for fees for which they may be eligible.

All UK and EU students may choose to defer fee payment in part or in full until after they graduate, by taking out a fee loan through the Student Loans Company. Full information about the Government’s new student loans for maintenance and fees as well as University Bursary schemes for students entering Higher Education from 2006 is available in the University’s Pre-Arrival Booklet sent to all new students from July and in the Student Handbook distributed to all new students at Registration. Information is also available on the DfES website at www.dfes.gov.uk/studentsupport (and at equivalent websites for Scottish, Welsh and EU students) and from the University’s website at www.ncl.ac.uk/student-support or http://www.ncl.ac.uk/undergraduate/finance/bursary.phtml.

Conditions
A student who fails to pay tuition fees, or in respect of whom tuition fees are not paid by a grant-awarding body or other sponsor, by the due date and who cannot show reasonable cause and give a satisfactory assurance as to payment will be excluded from further study in the University.

Under the regulations of the University, no degree, diploma or certificate shall be conferred upon any person owing money to the University.

Other Notes
These fees are composite fees, except where stated otherwise in this Schedule or in any other official University publication. They include matriculation, registration, tuition or supervision, library, examination, re-examination and graduation fees. Membership of the Union Society does not entail payment of a separate fee. Instead, the Union Society receives an allocation from the University towards the cost of providing services which are available to all students. Composite fees do not include accommodation fees (see http://www.ncl.ac.uk/undergraduate/accommodation/ for further information) or certain incidental fees.

Some programmes have additional expenses such as fieldwork, visits, drawing materials, printing etc (see section 12, Expenses for fieldwork, vacation courses, etc).

Fees for individual programmes can be viewed at: http://www.ncl.ac.uk/regulations/fees/

12. EXPENSES FOR FIELDWORK, VACATION COURSES, ETC

Students taking programmes of study in certain subjects may expect to incur additional expenses on necessary fieldwork, vacation courses, visits and projects, etc. These expenses could occur in each year in which a subject is taken. Please contact the school concerned for details about figures. Students must also expect to incur costs each year for books and equipment.

External and Vacation Studies

Some schools may make sums of money available to undergraduate students who are eligible, or potentially eligible, for support from local authorities (or equivalent bodies) in the UK towards the Home Student Tuition Fee Contribution, to help towards the expenses of field courses and vacation study and the additional cost of residential study away from the University in term time. Students should ask the head of their school for details. The University is unable to make any contribution towards expenses incurred in external and vacation studies to those students who are not in receipt of support from local authorities (or equivalent bodies) in the UK and such students must budget accordingly. The following information gives more detailed examples of the type of activities which may require additional expenses in some areas. Students of modern foreign languages are expected, as an integral part of their programme, to spend a period in a country where the language of their choice is spoken. Students of Architecture, Fine Art and Town and Country Planning are similarly expected to travel in this country or abroad. A contribution towards the costs of essential study abroad may be obtained from the school concerned. Students of Music are expected to pursue a systematic practical study of a musical instrument or the voice. Students taking Archaeology/History of Art in Stages 2 and 3 of the Combined Honours, Joint Honours and Single Honours degrees, and as a subsidiary or special subject, undertake approved fieldwork in vacations in accordance with the regulations. Medical students, as part of their studies, are required to undertake visits to general practices and industrial establishments. This is in addition to regular clinical work both in the teaching hospitals within Newcastle and possibly in other hospitals in the northern region. As part of their elective period at the end of the fourth or fifth year students may, if they wish, travel abroad.

Additional Costs

In addition, all students should be aware that there may be additional costs applicable to their programme for such items as books, instruments etc. This will vary between subject areas and students should contact the appropriate head of school for detail.
