Welcome to the S³P system.

Login to the system by entering your User name and password.

The User name is the same as your normal University User name i.e. B1234567.

When you first become a student we will send the initial S³P password to your University e-mail account but you will be forced to change it the first time you log in. The password you choose is then confirmed to you via e-mail.

If you have forgotten your password use the ‘Having trouble logging in?’ link to reset it.
The first time you login each academic year you will have to confirm that you accept the University’s terms and conditions.

Please take a moment to look through the various regulations.

You must press the accept button to continue.
The main screen in S³P is the Registration Status Screen.

At the beginning of each academic year you will need to use S³P to register on your degree programme.

This screen indicates what steps you need to complete before you can register. You need to clear each of the red crosses.

Click on each link to take you to the relevant screen.
On the Student Data 1 screen you can update all of the data we hold about you as an individual.

All of this data is stored and used in accordance with the Data Protection Act.

Some fields are used only for statistical and monitoring purposes – e.g. Ethnicity. Please complete all fields.

Make sure that you provide term time and emergency contact details (it is important that we know who to contact if you suddenly became ill.)
There is an easy way to copy your home address to your term address etc.

Press the SAVE button at the bottom of the screen when you have filled in all of your data.

If you have missed out any compulsory fields you will get a warning – the fields are highlighted in red.
Most fields on the Student Data 1 Screen will be updated immediately in your main student record as soon as you press the save button.

However, if you change your name or date of birth this will send a message to your school notifying them of the requested change. Your school may then contact you to ask you to provide identity documentation before they can update your record.

When you have requested a change you will see this message on-screen and receive an email. There is also an indicator on the Status screen.
When you have updated your details on any of the screens you will be returned to the Registration Status Screen and the status of that item changes to a green tick.

You should now proceed to each of the other items that have a red cross alongside them.
On the Student Data 2 Screen we need you to confirm details about the previous qualifications you have achieved before starting at the University.

If you are an Undergraduate Student we need you to check that the A level or equivalent qualifications listed are correct. If anything is missing or incorrect please let us know by using the 'Qualifications Enquiry' button.

Postgraduate students would have been asked to provide copies of their qualifications during the application process. These will have been saved against your application and details WILL NOT be displayed here. We do not need you to send this information again.

All students in their first year should complete these questions. They only apply to new students and therefore in subsequent years the data will remain the same and should not be changed.
Information for students

On the Programme Details Screen you should confirm your programme of study. Check that the programme and stage are correct and click on the save button.

If you don’t think they are correct use the Enquire option instead. Type a brief message and press send, your message will be sent to your school.
Information for students

The Financial details item will only appear if you are a student who needs to pay tuition fees before registration e.g. a self financing postgraduate, an International student or a student with an outstanding debt from a previous year.
The Finance Screen shows details of the tuition fee you must pay before you can register and any debts from the previous academic year if applicable.

You can pay on-line via the ‘Pay now’ button (using a credit or debit card). Alternatively you can visit the Finance Office staff to pay in person when you arrive. However, please note that you cannot complete your registration until your fees are paid.

If you think that there is something wrong with your fees, contact the Finance Office using the link.
Once you have cleared all the items on the Registration Status screen that had a red cross alongside them the screen will look like this. You MUST now press the ‘Register’ button.

The individual items listed on the screen are still visible if you click on the ‘Show status flags’ link.

Please note that if your fees are paid later you must remember to log back into the system to complete this step.
If you are a new student this screen will be displayed when you press the ‘Register’ button.

You must print this document and bring it to the University with photographic ID so that you can be issued with a smart card.

Click on the link to find out more information about the smart card and where to get it from.

You can log back into the system at any time and reprint this document via the documents screen.
Once you have registered the Registration Status screen will look like this. However, please note that there may be additional steps you need to complete to finalise your registration.

For example, a new student will see this message indicating that they still need to collect their University smart card. **Please note that you are only provisionally registered until you collect your card.**

Once your card has been issued this message will disappear.
Other messages that may be displayed on the Registration Status screen are as follows –

Some new International students need to take an English language assessment to complete their registration. As soon as you have taken the assessment this message will disappear.

If you are a returning student your existing smart card should still remain valid (if it has expired you can get a new one from the library or Student Services). However, some returning students need to confirm their attendance at the beginning of an academic year by scanning their card on campus. This message will appear if this applies to you.

- **Language Assessment**
  
  Please note you are required to take a free English Language Assessment as soon as possible after arrival at the University. [Click here](#) for further information. You should be aware that failure to be assessed in English Language may result in your registration being cancelled.

- **Confirmed Attendance**
  
  To complete your registration you must ensure that you scan your smart card on campus. [click here](#) to find out where you can do this.
When your registration is complete the Registration Status screen will look like this.

Please remember to log back into the system throughout the year to update any of your details that may change e.g. your address.

You can also access other information from this screen.

If you are a taught student details about the modules you are studying are available via the Modules link.
Information for students

On the Modules screen any modules booked on your record for the current academic year will be displayed.

Most returning students will have chosen their modules via S3P after the Easter vacation in the previous academic year.

Some new students will be able to choose their modules via S3P. Your school will let you know if this applies to you.

There is a separate PowerPoint document available via the S3P help pages that gives detailed instructions and screenshots for the module choice process in S3P.
You can also print documents from the system via the ‘Documents’ link.
The Documents screen lists the documents you can print.

The Registration document is the barcode document that new students need to be able to get their smart card.

The Certificate of Attendance and Council Tax Certificate confirm your status as a student but **will only print if you are fully registered and have confirmed your attendance. The Council Tax Certificate will also only print during term time.**

The Transcript shows your module results. Your school will inform you after each academic session when results are available. Please note that at certain times of the year i.e. during the assessment period when results are being updated the transcript will not be available and will disappear temporarily from the list of documents on this screen.

Press the ‘Show Document’ button to see each document

Please note that where documents are specific to a particular academic year you must enter the year as 2014 for academic year 2014/15, 2015 for 2015/16 etc.
Information for students

To see instruction videos of registering using S³P go to:
http://www.ncl.ac.uk/itservice/pre-arrival/

If you experience any technical difficulties with S³P please contact the IT Service Desk: it.servicedesk@ncl.ac.uk

If you have any queries about the registration process please contact your school or e-mail: student-registration@ncl.ac.uk
