PROGRAMME
2019-20

Essentials

	Essential for PhD, MD and MPhil students NEW to Newcastle University		Essential for 2nd year PhD students
	Essential for ALL PhD, MD and MPhil students		Essential for 3rd and final year PhD students
	Essential 1st year PhD, MD and MPhil students		Essential ALL laboratory based research students

<i>Session</i>	<i>Date /Time</i>	<i>Where</i>	<i>Page</i>	✓
Welcome to Newcastle University	1 October 2019 09:00 - 10:00	MED.L2.8	4	
Research Ethics	3 October 2019 10:00 - 11:30	Graduate Training Suite	6	
Wellbeing, Equality, Diversity and Inclusion	1 October 2019 10:00 - 10:30	MED.L2.8	4	
Research Student Development, Careers and Enterprise Services	1 October 2019 10:45 - 11:15	MED.L2.8	4	
Managing your PhD/MD/Phil	1 October 2019 14:00 -15:30 or 8 October 2019 14:30 - 16:00	Various	5	
Chemical Safety	16 October 2019 14:00 - 16:00	DENT.LTE	7	
Biological and GM Safety	18 October 2019 14:00 - 16:00	DENT.LTD	7	
Recording your Research (Lab books, Research Diaries etc.)	15 October 2019 15:00 -16:00	DENT.LTE	6	
Academic Integrity and Plagiarism	7 November 2019 11:00 - 12:00	Graduate Training Suite	7	
E-Portfolio and Personal Development Planning	2 October 2019 12:00 - 13:00	MED.DENE.PC	5	
Health and Safety Requirements for Research Students	4 October 2019 13:00 - 15:30	DENT.LTF	6	
Thesis Writing	7 February 2020 13:00 - 15:00	DENT.LTD	23	
Your Personal Development Plan (PDP) - Preparing for the Progress Review Panel	24 February 2020 12:00 - 13:00 or 9 March 2020 12:00 - 13:00	DENT.LTD RIDB2.1.48	14	
Second Year Annual Review	2 March 2020 13:00 - 14:00	Baddiley-Clark Seminar Room	14	
The Viva and Beyond	23 April 2020 12:00 -13:00	DENT.LTF	24	

Introduction

The Graduate School is committed to providing postgraduate researchers with access to a comprehensive range of professional development opportunities. The Research Student Development Programme supports and complements your research as well as providing activities that will build generic skills and confidence in your own abilities. We endeavour to take a holistic approach to training and development, so the scheduled events are only a part of how we envisage researchers developing their skills and gaining experience. Students are required to make an on-going assessment of their own development and training needs through personal development planning (PDP) in the ePortfolio system. The development opportunities advertised have been mapped against the Vitae Researcher Development Framework (RDF), see page 32 - back cover and skills marked on each session. This should help students identify how best to meet their training and development needs.

Recognising that research students have varying backgrounds, the discretion of project supervisors can guide students to what is essential for them. All students should attend the most relevant 'Managing your PhD/MD/MPhil' session along with the annual sessions preparing them for progression.

Our aim is to keep the programme evolving throughout the year, so this booklet is only a guide to the year's activities. Development sessions are provided through the online workshops booking site: workshops.ncl.ac.uk/public/fms/

You can also access and register for any other other researcher development opportunities offered across the entire University at workshops.ncl.ac.uk/. Use of the booking system means that a record of your training is automatically made in your ePortfolio.

Where possible, online materials that supplement or allow you to catch up on sessions you could not attend are available on the Graduate School Website: ncl.ac.uk/fms/postgrad/skills/workshops

Workshop Feedback

We endeavour to keep our programme relevant to the changing researcher climate and we invite you to give feedback to help us do this. Following each session electronic evaluation forms are sent to you to complete. The forms mirror the Vitae Research Design Framework (RDF) and ePortfolio and are pre-populated to help you reflect on whether the session provided the guidance or development you needed.

The forms also include an overall rating and a comments box. We use this information to continually improve the programme so please tell us what worked well and what could be improved. Evaluation data is collected anonymously but we are always happy to hear from you directly. The contact for the Development Programme is Dr Richy Hetherington at medpg-dev@ncl.ac.uk.

In this booklet you will see workshops have been given an overall rating out of 10 by previous participants. We are very proud that 88% of our sessions are rated very good or good and we rely on your feedback to maintain these high standards and keep improving year on year.

Professionalism

Please attend punctually to avoid disruption. If you can no longer make a session, please cancel your booking online. If you fail to attend a session and do not cancel your booking please email medpg-dev@ncl.ac.uk to explain the circumstances. If no email is received your supervisor may be contacted. Research students should maintain an attendance record of 70% of the sessions booked and any student who has not maintained this will not be eligible for the post faculty travel grant.

Graduate Training Suite

The Graduate Training Suite (Cookson Building MED.MG.2.07) is a flexible training space for research students. The suite comprises three small study rooms which are used for one-to-one sessions but can also be booked by students for private study, a large training room and a lounge/kitchen area with a hot water boiler. The main training room has seven fixed PCs and a printer. There are moveable chairs and tables along with display equipment. When not in use for training sessions (indicated on a noticeboard in the lounge area) all postgraduates are welcome to use these facilities. If you wish to book any of the study rooms contact medpg-dev@ncl.ac.uk

Induction

The Graduate School recognises that our Research Students are individuals. We aim to offer an induction package that fits with your experience. All students should attend a *Managing Your...* PhD, MD or MPhil session providing vital training for students without research experience.

Welcome to Newcastle University

The Dean of Postgraduate Studies, welcomes all new PhD, MD and MPhil students to the Faculty of Medical Sciences. The session provides an opportunity to ask any questions that you may have about living and studying in the North East of England.

Target group: New PhD, MD & MPhil Students

Skills: B1, B2, B3, C3, D1

Book at: workshops.ncl.ac.uk/fms/welcome

Tue 1 October 2019	09:00 - 10:00	MED.L2.8
Mon 13 January 2020	10:00 - 11:00	MED.L2.8

Feedback Score: 8.4

Research Student Reception

All new and existing students are invited to this social event. Two leading academics in the faculty present a candid perspective on their career and their research. The talks will be followed by lunch in the David Shaw Lecture foyer.

Target group: All Research Students

Skills: B2, B3, C1, D1

Book at: workshops.ncl.ac.uk/fms/reception

Tue 1 October 2019	12:00 - 13:00	DENT.LTC
--------------------	---------------	----------

Feedback Score: 7.4

Wellbeing, Equality, Diversity and Inclusion

The University takes issues of research student Wellbeing and Equality Diversity and Inclusion of all their students and staff very seriously. This session will provide guidance on the range of support that is available.

Target group: New PhD, MD & MPhil Students

Skills: B1, B2, C1, D1

Book at: workshops/ncl.ac.uk/fms/wellbeingedi

Tue 1 October 2019	10:00 - 10:30	MED.L2.8
Tue 14 January 2020	14:00 - 14:30	Baddiley-Clark Seminar Room

Feedback Score: 8.2

Research Student Development, Careers and Enterprise services

The broad range of development opportunities available to all research students are presented, including information on the faculty travel grant and scholarship schemes with input from the Careers Service and the Faculty Research and Enterprise Services team.

Target group: New PhD, MD & MPhil Students

Skills: A3, B1, B2, B3, C2, C3

Book at: workshops/ncl.ac.uk/fms/InductionResDev

Tue 1 October 2019	10:45 - 11:15	MED.L2.8
Tue 14 January 2020	14:30 - 15:00	Baddiley-Clark Seminar Room

Feedback Score: 8.4

Induction

Managing Your PhD/MPhil/MD: An Essential Guide

These introductory workshops will help you to manage your studies successfully. You will have the chance to ask questions and address any areas of concern. Attending is compulsory for all PhD, MD and MPhil students. If you cannot attend the most appropriate session you may attend any of the others.

Target group: ALL 1st year PhD, MPhil & MDs

Skills: B1, B2, B3, C1, C2, D1, D2, D3

Book at: workshops.ncl.ac.uk/fms/managing

Managing your PhD/MPhil for students NEW to Newcastle University

Tue 1 October 2019	14:00 - 15:30	MED.L2.8
--------------------	---------------	----------

Managing your PhD/MPhil for FORMER Newcastle University students

Tue 1 October 2019	14:00 - 15:30	Graduate Training Suite
--------------------	---------------	-------------------------

Managing your PhD/MPhil for Part-time and Staff candidates

Tue 8 October 2019	14:30 - 16:00	RIDB2.1.58
--------------------	---------------	------------

Managing your PhD/MPhil for Applied Health students

Tue 8 October 2019	14:30 - 16:00	RIDB2.1.58
--------------------	---------------	------------

Managing your MD

Tue 8 October 2019	14:30 - 16:00	RIDB2.1.58
--------------------	---------------	------------

Managing your PhD/MPhil for January starters

Tue 14 January 2020	15:00 - 16:00	MED.L2.8
---------------------	---------------	----------

Induction catch-up for April starters

Wed 6 May 2020	15:00 - 17:00	Graduate Training Suite
----------------	---------------	-------------------------

Feedback Score: 8.6

e-portfolio and Personal Development Planning

Engaging with your ePortfolio is an essential element of your research degree. This session will provide the rationale for its importance and give practical guidance to get you started with reflective practice in your research.

Target group: ALL 1st year PhD, MPhil & MDs

Skills: B1, B2, B3, C2, D1, D3

Book at: workshops.ncl.ac.uk/fms/eportfolio

Wed 2 October 2019	12:00 - 13:00	MED.DENE.PC
Wed 2 October 2019	13:00 - 14:00	MED.DENE.PC
Tue 14 January 2020	11:00 - 12:00	MED.DENE.PC

Feedback Score: 8

Introduction to Library Facilities

The library provides a range of vital resources for researchers including access to journals, advice on comprehensive literature searching and guidance on referencing. The session is very useful for students who are new to Newcastle.

Target group: New PhD, MD & MPhil Students

Skills: A1, C2, D3

Book at: workshops.ncl.ac.uk/fms/library

Wed 2 October 2019	11:30 - 12:00	Walton Library
Wed 2 October 2019	14:00 - 14:30	Walton Library
Tue 14 January 2020	13:30 - 14:00	Walton Library

Feedback Score: 8

Induction

Research Ethics

A theoretical backdrop for the consideration of ethics in bioscience research is presented. There will be an opportunity to discuss the concept of bioethics and what the implications are for the individual, society and for professionals working in bioscience, medicine and health sciences.

Target group: New PhD, MD & MPhil Students

Skills: A3, B1, B2, C1, C2, D1, D3

Book at: workshops.ncl.ac.uk/ethicstheory

Thur 3 October 2019	10:00 - 12:00	Graduate Training Suite
Wed 9 October 2019	13:00 - 15:00	Graduate Training Suite
Tue 11 February 2020	13:00 - 15:00	Graduate Training Suite

Feedback Score: 8

Recording Your Research (Lab books, Research Diaries, etc.)

Considering three aspects of recording research methods and data: the conventional lab book, recording in a clinical setting and the recording of electronic data, this session covers each and the interplay between these methods.

Target group: ALL New PhD, MPhil & MD

Skills: A1, A2, A3, B2, C1, C2, D1

Book at: workshops.ncl.ac.uk/fms/recording

Tue 15 October 2019	15:00 - 16:00	DENT.LTE
Thu 15 January 2020	15:00 - 16:00	Graduate Training Suite

Feedback Score: 8.2

Health and Safety Requirements for Research Students

This is a mandatory session for all students who have not received University safety training previously. A general overview of safety procedures, including roles and responsibilities across the University is provided. NB. Previous MRes students starting a PhD need not attend.

Target group: ALL New PhD, MPhil & MD

Skills: C1, C2, D1

Book at: workshops.ncl.ac.uk/fms/safety

Fri 4 October 2019	13:00 - 15:30	DENT.LTF
Wed 29 January 2020	13:00 - 15:00	RIDB2.1.58

Feedback Score: 8.4

Introduction to Critical Appraisal

Provided as part of the MRes induction this session is open to all research students to help build awareness of non-reproducible results, poor experimental design, incorrect analysis, conflict of interests and even outright fraud.

Target group: 1st year PhD, MD & MPhil

Skills: A1, A2, C1

Book at: workshops.ncl.ac.uk/fms/Criticalappraisal

Fri 26 September 2019	09:00 - 10:00	DENT.RBG
-----------------------	---------------	----------

Feedback Score: 8.2

Induction

Biological and Genetic Modification Safety

This session is mandatory for researchers working with biological agents and will cover safely handling genetically modified organisms (GMO). Essential advice on minimising risks will be provided.

Target group: All Lab based research students

Skills: C1, C2, D1

Book at: workshops.ncl.ac.uk/fms/biosafety

Fri 18 October 2019	14:00 - 16:00	DENT.LTD
Mon 21 October 2019	14:00 - 16:00	Baddiley-Clark Seminar room
Thu 30 January 2020	10:00 - 12:00	RIDB2.1.65
Thu 6 February 2020	09:00 - 11:00	DENT.LTD

Feedback Score: 8

Academic Integrity and Plagiarism

In this interactive session aspects of academic integrity including data manipulation and reproducibility will be covered. A member of the Library team advises on the issues surrounding plagiarism and the methods used to detect it.

Target group: ALL first year research students

Skills: B1, B2, C1, C2, D1, D2

Book at: workshops.ncl.ac.uk/fms/integrity

Thu 7 November 2019	11:00 - 12:30	Graduate Training Suite
Thu 23 January 2020	11:00 - 12:30	RIDB2.1.58

Feedback Score: 8

Chemical Safety

All researchers working with chemicals are required to attend this training session. Information on COSHH regulations and assessing and controlling risk will be provided. The session provides advice on emergency procedures and first aid measures for fluorides, phenol and cyanide.

Target group: All research students

Skills: C1, C2, D1

Book at: workshops.ncl.ac.uk/fms/chemsafety

Wed 16 October 2019	14:00 - 16:00	DENT.LTE
Thu 24 October 2019	15:00 - 17:00	DENT.LTD
Fri 10 January 2020	10:00 - 12:00	DENT.LTD
Wed 5 February 2020	14:00 - 16:00	DENT.LTE

Feedback Score: 8.6

NHS Research Ethics Committee (REC) Application Training

Research students working with clinical samples or patients are likely to need NHS ethical approval. This session will explain the processes of getting this approval and operating appropriately in these circumstances.

Target group: Clinical PhD, MD & MPhil

Skills: C1, C2, D2

Book at: workshops.ncl.ac.uk/fms/nhs-rec-training/

Fri 28 February 2020	13:00 - 14:00	RIDB2.1.58
----------------------	---------------	------------

Please provide evaluation feedback for this new session.

Statistics and Analysis

Numerous methods of data analysis are employed by researchers looking to support their hypotheses. We aim to support you with guidance tailored to your research questions. Experienced supervisory teams provide the bulk of this advice but it is often advisable to have an experienced statistician to confirm that experiments are set up appropriately and that you are using the best approach. We offer one-to-one statistical support sessions throughout the year in addition to workshops on Basic Stats, SPSS and SAS and Applied statistics using SPSS (which takes the biologist's perspective) to give you practical skills to process your data.

Statistical Support: One-to-One Advice

One-to-one statistical support sessions are provided throughout the year. These sessions are intended to help you with specific issues in the design and analysis of your quantitative research. Participants are required to provide details of their query on application.

Booking a one-to-one session requires you to complete an online form describing your research and once this is completed you will be allocated a time for your meeting.

Target group: Students requiring specific advice

Skills: A1, A2, C2

Book at: workshops.ncl.ac.uk/fms/stats121

Feedback Score: 10

SPSS Beginners

An introduction to the statistical package SPSS and the variety of statistical methods for which it can be used. A basic knowledge of statistics is required to participate successfully in this session. This workshop is supported by the NIHR Newcastle Training Network.

Target group: Any Research Student using Stats

Skills: A2, A2, C2

Book at: workshops.ncl.ac.uk/fms/spss

Fri 15 November 2019	09:45 - 17:00	BSTC.2.40.PC
Mon 22 November 2019	09:45 - 17:00	MED.LINN.PC
Fri 22 May 2020	09:45 - 17:00	MED.DENE.PC

Feedback Score: 10

Basic Statistics

A succinct tour of contemporary statistical tools and techniques commonly used in medical and bioscience research. Topics include summary statistics, confidence intervals, hypothesis testing, ANOVA (Analysis of Variance), correlation and regression.

Target group: First year PhD, MD & MPhil

Skills: A1, A2, C2

Book at: workshops.ncl.ac.uk/fms/basicstats

Thu 14 November 2019	09:00 - 12:00	RIDB1.2.04A
Tue 21 January 2020	10:00 - 13:00	MED.L2.6

Feedback Score: 9.8

SPSS Advanced

A workshop exploring features of SPSS including: simple and multiple regressions; repeated measure analysis, cross tabulation, survival analysis, binary logistic regression and a brief introduction to 2-way and n-way ANOVAs. This workshop is supported by the NIHR Newcastle Training Network.

Target group: Any Research Student using Stats

Skills: A1, A2, C2

Book at: workshops.ncl.ac.uk/fms/spssplus

Thu 5 December 2019	09:45 - 17:00	BST.2.40.PC
Fri 22 May 2020	09:45 - 17:00	RIDB.NEREID.PC

Feedback Score: 10

Statistics and Analysis

MatLab

Matlab is an interactive computing system designed to handle practically every kind of engineering and scientific computation, especially matrix calculations (MATrixLABoratory). This workshop will give participants hands-on practice using some of the most useful features of Matlab, including vectors and matrices, functions, scripts, programming, linear algebra and basic plots.

Target group: Researchers using modelling

Skills: A2, A2, A3

Book at: workshops.ncl.ac.uk/fms/matlab

Tue 3 December 2020	09:00 - 17:00	MED.LINN.PC (M5.039)
---------------------	---------------	-------------------------

Feedback Score: 7.2

Data Handling and Spreadsheet Skills

Topics covered include analysis, formatting and manipulation of data, production and formatting of charts and graphs, basic statistical analysis using MS Excel, and using Excel as a database with pivot tables. This workshop is supported by the NIHR Newcastle Training Network.

Target group: First Year Students

Skills: A1, A2, C2

Book at: workshops.ncl.ac.uk/fms/excel

Mon 25 November 2019	14:00 - 16:00	MED.DENE.PC
Wed 26 February 2020	14:00 - 16:00	MED.MG.POOL. PC

Feedback Score: 9.6

Data Analysis and Visualisation Using R

R is a powerful, free, widely-used programming language for statistical analysis of quantitative data. This course will introduce you to programming in R; analysing datasets using general and generalized linear models; making publication-quality figures; simulations; and advanced analysis techniques such as model selection and meta-analysis. It is best if you can commit to all six sessions.

Target group: Researchers using modelling

Skills: A1, A3

Book at: workshops.ncl.ac.uk/fms/rprogramming/

Wed 6 November 2019	13:00 - 14:00	RIDB2.1.63
Wed 13 November 2019	13:00 - 14:00	RIDB2.1.63
Wed 20 November 2019	13:00 - 14:00	RIDB2.1.63
Wed 27 November 2019	13:00 - 14:00	RIDB2.1.63
Wed 4 December 2019	13:00 - 14:00	RIDB2.1.63
Wed 11 December 2019	13:00 - 14:00	RIDB2.1.63

Feedback Score: 9.4

Introduction to Practical Bioinformatics and RNA-seq Analysis

This three day workshop introduces Linux command-line and R programming environments. It covers essential core utilities and introduces BLAST and shell scripting. Day two will cover Tidyverse and the final day will cover analysis of high throughput sequence data analysis in R and DRSeq2

Target group: Researchers using bioinformatics

Skills: A1, A2, C2

NB A charge will apply for this workshop

Tue 14 January 2020 to	09:00 - 16:00	Graduate Training suite
Thu 17 January 2020	09:00 - 16:00	

No feedback has been collected from this workshop at this stage

Statistics and Analysis

Finding the right help with statistics and planning experiments

This session will consider a number of quantitative analysis tools available for researchers and help to identify where support is available. The Development programme offers Basic Stats training, SPSS, SAS, R, Matlab and one to one support, guidance on getting the best help at the right time will be provided.

Target group: First Year Research Students

Skills: A1, A2, C1, C2

Book at: workshops.ncl.ac.uk/fms/expts

Fri 11 October 2019	10:00 - 12:00	CASB.2.32
Mon 27 January 2020	11:00 - 13:00	DMBB.2.07

Please provide evaluation feedback for this new session.

Applied Statistics with SPSS

A Biologist's perspective on statistics using SPSS. Including managing data, calculating means and standard deviations, and running tests of normality. After discussing how to choose the correct statistical test, there will be the chance to run t-tests and analysis of variance. We will also use SPSS to create select graphs and charts for publication.

Target group: First Year PhD, MD & MPhil

Skills: A1, C2

Book at: workshops.ncl.ac.uk/fms/appliedstats

Thu 8 July 2020	15:00 - 17:00	MED.MG.POOL. PC
-----------------	---------------	--------------------

Feedback Score: 8.6

Getting Started with SAS System

SAS is a powerful statistical package which can be used for predictive modelling. This workshop provides a quick overview of the essentials of SAS including SAS Base and SAS Enterprise Guide.

Target group: Researchers using modelling

Skills: A1, A2, A3, C2

Book at: workshops.ncl.ac.uk/fms/sas

Thu 13 February 2020	09:45 - 17:00	MED.DENE.PC
----------------------	---------------	-------------

Feedback Score: 9.4

Referencing and Document Control

Creating well laid out documents with appropriate referencing is essential and training to do this can save many hours of frustration. As well as organised training, the digital skills team offer one-on-one sessions on an appointment basis, see www.digitalskills.ncl.ac.uk or get in touch at itskills.support@ncl.ac.uk

Document Management – Content and Layout

A supervised, self-directed study workshop on how to get the most out of MS Word using styles and style sets, table of contents, page layout and numbering, headers and footers, spelling and grammar, and equations.

Target group: 1st year research students

Skills: A1, C2, D2

Book at: workshops.ncl.ac.uk/fms/docman1

Thu 17 October 2019	10:00 - 12:00	MED.DENE.PC
Mon 1 June 2020	10:00 - 12:00	MED.DENE.PC

Feedback Score: 10

Document Management – Images and Tables

A supervised, self-directed workshop which covers creating and managing images, formatting and manipulating tables and referencing these objects within the document efficiently.

Target group: 1st year research students

Skills: A1, C2, D2

Book at: workshops.ncl.ac.uk/fms/docman2

Tue 22 October 2019	10:00 - 12:00	MED.DENE.PC
Thu 4 June 2020	10:00 - 12:00	MED.DENE.PC

Feedback Score: 9.2

Advanced Document Management – Using Word and EndNote

This session covers new and advanced techniques in Word and EndNote such as templates, page layout and section breaks, using and manipulating Endnote citations and references, as well as reviewing skills covered previously.

Target group: 1st year research students

Skills: A1, A2, C2, D3

Book at: workshops.ncl.ac.uk/fms/adm

Thu 5 December 2019	10:00 - 12:00	MED.GLEN.PC
Tue 16 June 2020	13:00 - 15:00	MED.GLEN.PC

Feedback Score: 8

Managing Long Documents

Building on previous document management and library skills sessions, this workshop develops your advanced Office and Endnote knowledge, allowing you to focus on research work in your later stages without IT distractions.

Target group: 2nd year research students

Skills: A1, A2, C2, D2

Book at: workshops.ncl.ac.uk/fms/mltd

Thu 9 October 2019	13:00 - 16:00	MED.GLEN.PC
Thu 12 March 2020	13:00 - 16:00	MED.GLEN.PC
Thu 18 June 2020	13:00 - 16:00	MED.GLEN.PC

Feedback Score: 10

Referencing and Document Control

Medline

This session will help you understand the structure of Medline, how to sign into the database, use subject headings and limits, use combined and limited searches, check reference availability in the catalogue and select, save and print articles and references.

Target group: 1st year research students

Skills: A1, A3, C2

Book at: workshops.ncl.ac.uk/fms/medline

Thu 21 November 2019	11:00 - 12:30	MED.GLEN.PC
Mon 27 January 2020	09:00 - 10:30	MED.GLEN.PC
Wed 13 May 2020	10:00 - 11:30	MED.GLEN.PC

Feedback Score: 9.2

Building Robust Search Strategies

Advice on choosing the appropriate databases and framing a search query including: defining your topic, tips for narrowing and broadening your search and using controlled vocabulary.

Target group: 1st year research students

Skills: A1, A3, C2

Book at: workshops.ncl.ac.uk/fms/searching

Thu 5 December 2019	15:00 - 16:30	MED.DENE.PC
Tue 28 January 2020	09:00 - 10:30	MED.GLEN.PC
Wed 19 February 2020	14:00 - 15:30	MED.GLEN.PC

Feedback Score: 9.2

Non-Medline Library Databases

Covering Scopus, Web of Knowledge, CINAHL and touching on Embase and PsycInfo, this session offers advice on citation searches, combined and limited searches, checking reference availability in the catalogue and electronic journals, and selecting, saving and printing articles and references.

Target group: 1st year research students

Skills: A1, A2, C2, D2

Book at: workshops.ncl.ac.uk/fms/nonmedline

Tue 26 November 2019	09:00 - 10:00	MED.GLEN.PC
Mon 20 January 2020	09:00 - 10:00	MED.GLEN.PC
Mon 26 February 2020	09:00 - 10:00	MED.GLEN.PC

Career and Personal Development

Research students in the faculty benefit from a dedicated member of the Careers Service team to support their professional development along with an enterprise adviser. Also an integral part of researchers' personal development is their wellbeing, this has been supported through the #PGRWellbeing4All project.

Making a Successful Career Move

In this interactive session run by the faculty's postgraduate Careers Adviser, we will help you to explore some of the many career options for scientists outside of academic research.

Target group: All research students

Skills: B1, B2, B3

Book at: workshops.ncl.ac.uk/fms/careermove

Tue 31 March 2020	14:00 - 16:00	MED.L2.8

Getting 'that' first postdoc position

A researcher's first postdoc position can often be career defining. It is important to make a careful and informed choice about the postdocs on offer. Advice on possible routes into an academic role and the perspective of an academic involved in recruiting researchers is offered.

Target group: Final year students

Skills: B1, B2, B3, C3

Book at: workshops.ncl.ac.uk/fms/postdoc

Additional Available Resources

Research Seminars

You should attend a minimum of 10 research seminars per year. A list of research seminars can be found on the Graduate School events calendar page: ncl.ac.uk/fms/postgrad/calendar. Each Institute will also have a seminar timetable on their own webpage.

Taught Programme Modules

With agreement of the Module Leader and Degree Programme Director, we are very happy for research students to attend any lecture courses delivered within the faculty. Attendance would be on a non-credit bearing basis and examinations would not be included. Practical classes are only available where there is a significant benefit for the student's research.

The following is a non-exhaustive list of taught modules: Medical Genetics; Neuropharmacology; Pharmacogenetics; Biochemistry; Carcinogenesis and Anticancer Drugs; Cell Biology; Clinical Pharmacology; Clinical Skills; Cytogenetics and Human Evolution; Experimental Design and the Process of Research; Genetics; Human Anatomy; Immune Recognition; Pharmacology; Physiology; RNA, Genetic Disease & Development; Systems Pharmacology; The Molecular Basis of Cancer; The Nervous and Immune Systems; Toxicology; Xenobiotic Metabolism.

The complete list of taught programme modules is at www.ncl.ac.uk/module-catalogue

If you wish to attend a taught module you should contact the Module Leader and Degree Programme Director well in advance of the module starting, and be prepared to be notified of acceptance of a place at short notice.

University English Language Assessment (UELA)

All new students whose native language is not English will receive a free University English Language Assessment (UELA), unless they are specifically exempted by INTO Centre staff. The assessment is a way for the university to work out the sort of help is most appropriate for you. The results will determine who is in most need of the in-session 'English for Academic Purposes' classes. The UELA schedule can be found at www.ncl.ac.uk/students/inseasonal/ucla/

English Courses for Students in the Faculty of Medical Sciences

- English for PhD/MD/MPhil Students in Medical Sciences (INU9074)
- English for MRes students in Medical Sciences (INU6114)

These courses are for research students in the Faculty of Medical Sciences only, and will help you to write research papers and develop written academic English. You will look at introductions, literature reviews, methods, results, discussion and oral presentations from your area of research. These classes include homework tasks which you may complete and send to the teacher by e-mail in order to receive individual feedback. Registration note: Please note that you do not need to register in person for this class. This class will be registered in the same way as the Academic Language Skills (ALS) classes.

Other Faculty Graduate Schools

The Faculty of Medical Sciences attempts to deliver a Development Programme that is most suitable for postgraduates in Medical Science, however, we recognise that our researchers work in a wide variety of fields and may well have aspirations outside of their current field of study. The Graduate Schools of the University's other two faculties, Humanities and Social Sciences (HaSS) and Science, Agriculture and Engineering (SAGe) also offer training and development programmes. Postgraduate students are free to attend any of the sessions that are delivered by any faculty, subject to availability and with priority going to the students of that faculty. See workshops.ncl.ac.uk for all programmes.

Organisational Development

The University's Organisational Development team run a variety of training sessions. Research students who are members of staff are encouraged to take advantage of the events on offer. Research students who are not members of staff cannot attend these workshops. If there is something offered by Organisational Development that you are interested in please contact Dr Richy Hetherington to see if any equivalent courses are available for research students. See newcastle.sharepoint.com/hub/orgdev

Language Resource Centre

To improve your English or learn a foreign language, register with the Language Resource Centre and you will have access to materials for 150 different languages and multimedia resources to aid English language learning. The Centre also has 80 PCs with language learning software, satellite TV, audio equipment and video. The Open Access Centre is located on Level 2 of the Old Library Building. For more information go to www.ncl.ac.uk/language-resource-centre/

Range of Additional Opportunities

Soapbox Science

Soapbox Science is a novel public outreach platform for promoting women scientists and the science they do. They place inspirational speakers on soapboxes in public areas and encourage them to engage in and start conversations with the public about their work. Visit soapboxscience.org to find out more about the project.

Pint of Science

Pint of Science is an international engagement festival. The basic idea is simple... talks in pubs.

Monday 11- Wednesday 13 May 2020

More information at www.pintofscience.co.uk

Palace of Science Exhibition

This local organisation is run by volunteers and celebrates the cutting edge research being done in the region and making it accessible to non-scientists at a range of events outside of the university. In March it runs a celebratory event with a night of fun interactive demonstrations with exhibitors from around the North East. There is also a regular talk series - SciBars and SciQuizes throughout the year. If you are interested in giving a talk or organising an event then get in touch.

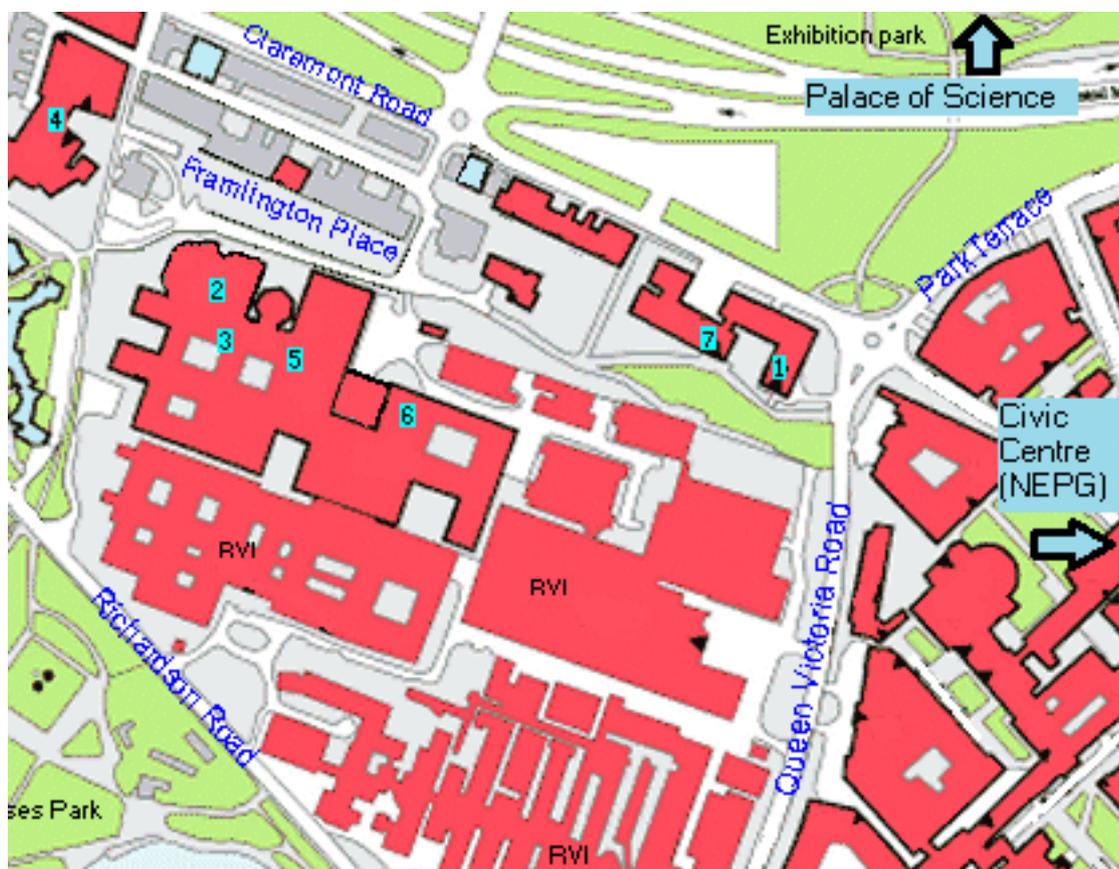

Email: scientist@palaceofscience.co.uk or see the website www.palaceofscience.co.uk

FameLab

FameLab is another competition where contestants have just three minutes to convey a science concept in an exciting way, but without the focus on your own research project. This international competition allows props but no slides at all. For more information see www.famelab.org

Researchers Development Framework

The Researcher Development Framework (RDF) is a major new approach to researcher development, to enhance our capacity to build the UK workforce, develop world-class researchers and build our research base. The RDF is a professional development framework for planning, promoting and supporting the personal, professional and career development of researchers in higher education. It articulates the knowledge, behaviours and attributes of successful researchers and encourages them to realise their potential.

The RDF summarises the knowledge, behaviours and attributes of effective and highly skilled researcher in a useful format for policymakers and research organisations who are planning the support and development of researchers in higher education. The RDF is structured in four domains, which encompass what researchers need to know to do research, how to be effective in their approach to research, when working with others and in contributing to the wider environment. Within each of the domains are three sub-domains and associated descriptors, which describe difference aspects of being a researcher.

For further details see: www.vitae.ac.uk/policy-practice/234301/researcher-development-framework.html
