The Inline Tools

Bubble Comment – this is piece of feedback that is held within a speech bubble icon. Students would click to expand and read the feedback.

4. To create a bubble comment, left-click on the script and click the middle icon from the set that appears

5. A box will appear where you can type your feedback. Reduce the box again by clicking on the speech bubble icon underneath.

6. You can drag the bubble comment anywhere on the page

Inline text comment – this is text written directly on to the script.

7. To create an inline comment, left-click on the script and click the right hand side icon.

8. Once you select inline comment, a box will appear where you can type your feedback. This will appear as text directly on the page.

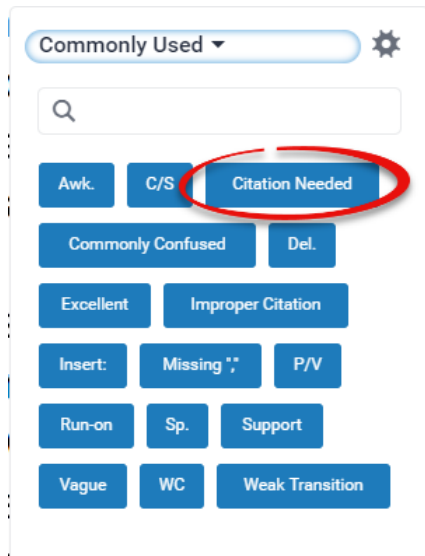

9. The third commenting option is to insert a Quickmark comment. Please refer to the [Quickmark guide](#) to find out more about Quickmark comment libraries. To insert, left click on the script and choose the left hand icon.

10. The Quickmark selection box will appear.

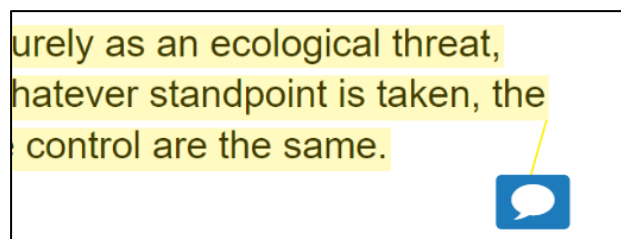

11. Select the relevant Quickmark to add to the script.

12. You can add more functionality by selecting some text. After you release the mouse button, you will have three options available as before.

13. The middle option adds a bubble comment, and the left hand icon adds a Quickmark as previously. Both of these function in the same manner, except there is now a line between your comments and the targeted text, emphasising the context of your comment.
