Guide to independent living in University-owned Accommodation

At Newcastle University, we aim for every student to enjoy their time living with us, and to live a healthy lifestyle.

Places in our accommodation are offered based on an understanding that you will be able to adapt to living away from home and be able to complete all daily living activities independently.

To help you to make the most of this experience we have compiled a list of household tasks which form part of daily independent living. Further information regarding the cleaning service we provide in your residence is detailed on our [website, under the "additional information" section](#).

If you experience difficulties with daily independent living skills you can contact Student Health and Wellbeing for further advice about support through their [website](#) or by [email](#).
