This up dated listing is formatted by: -

Alphabetical
order

The entries are self-explanatory although not every organisation has the same amount of data available, the complete list of information is as follows: -

General Category
Specific Activity
Name
Address
Contact Name
Telephone No
Fax No
Email Address
Web Address
Facebook Address
Flickr Address
Twitter Address
YouTube Address

The alphabetical listing in this section is straight forward, the front page clearly marks what 'World Area' is used which is then split into geographical regions and then into the Countries. The only 'World Areas' where this does not apply is Oceania and the British Isles where only the country names are stated.

We have also produced a separate pdf file for all of the organisations which is called the 'General Category Index' which lists all of them so that you can see what organisations we have put together under the one heading. The 'General Category Index' will also show the specific activities information for quick reference.

Altogether, there are 6 'World Area' sections which are as follows: -

Africa (North of the Equator and South of the Equator)
Americas (Central & Caribbean, North and South)
Asia (North & West and South & East)
British Isles (Republic of Ireland and United Kingdom)
Europe (North & East and South & West)
Oceania (including the Southern Pacific Ocean)

All of the sections are set out as individual hard copies so that they can be printed as a hard copy or they can be used from a computer as they have active hyperlinks.

PLEASE NOTE: - Because of the close work that is undertaken by organisations based in the British Isles where there are many of them that have offices in other parts of the region ALL ENTRIES are purely alphabetical. If you refer to the 'General Category Index' each country is separately indentified alongside the organisation's name.
