Welcome Back

Welcome to Week 2 of Newcastle University’s Summer Programme. This week is all about applying to university. You can work through the following checklist at your own pace to get familiar with the university application process:

- **Watch the Webinar** - The webinar is a great place to start. Recent graduates give you a complete overview of the university application process- including hints and tips for your application, important deadlines, what happens on results day and more.

- **Applying to University Guide** - This handy guide summarises the key points to be aware of both pre- and post-application. Be sure to download a copy and give it a read.

- **Listen to the Podcast** - [Coming Soon] Our outreach ambassadors are all recent graduates who went through the application process themselves a few years ago. They recount their experiences of the application process and share tips for your personal statement.

- **Look up your Course Requirements** - Some courses only require you to submit a UCAS application, whereas others might also involve additional steps, such as an interview, audition or a portfolio submission, depending on the course. Look up what the application process involves for your course so you can be prepared. Also be aware that requirements might differ from university to university.

- **Ask us your Questions** - If you’ve got any questions, or want to find out more from our current students, you can get in touch with them online through Unibuddy.

**Next Week:** We’ll be looking at the most important part of your university application in more detail - the Personal Statement. See you then!
