Global Opportunities
Summer Programme 2022
Please note that the Newcastle University Business School offer a bespoke summer school programme for their UG students, with funding support available. NUBS students can access information on the NUBS Summer School Programme by emailing the NUBS Placement and Study Abroad team at nubs.placementandstudyabroad@newcastle.ac.uk.

Contents

- Introduction to GO 2022 Summer Programme
- How to apply
- Funding
- In-Person Summer Schools - overview of opportunities
  - European destinations
  - Non-EU destinations
- Virtual summer schools
Overview

Make the most of your university break and gain an international advantage by taking part in a summer programme abroad. This brochure lists summer schools provided by our partner universities. You can find a course related to your degree or take the opportunity to try something new.

Students who attend in-person summer schools through Global Opportunities:

- will be eligible for Turing Funding to support summer schools with a minimum duration of 14 calendar days
- may be eligible to apply for NCL Summer School Bursaries to support with tuition fees if they receive Opportunities Scholarships
- will be eligible to apply for NCL Climate Conscious Travel Bursaries
- may receive discounts from some partner institutions
- can request to have their participation recorded in their HEAR (Higher Education Achievement Report)
- can benefit from free cover provided by Newcastle University insurance

Do you want to:

- Deepen your academic knowledge?
- Develop your intercultural competence?
- Increase your employability in a specific area?

A summer school is a great way for you to extend your learning in a global environment and a chance to make new international friends and develop your professional networks.

Most summer schools have social and cultural programmes alongside the academic programme to help you learn about the country you are visiting, make friends and have fun!
How to apply

• **Research summer school opportunities.**
  Take a look through this brochure and find an option which suits you. It’s important to think carefully about whether this is the right opportunity. Make sure you tick these boxes:
  - Practical considerations - dates, destination, travel, costs, accommodation.
  - Course content - level of study, learning content and assessment. Do you meet academic requirements and pre-requisites?
  - Partner summer school application requirements, deadlines, costs and payment.
  - Entry requirements - including visas, Covid restrictions.

• **Apply through Terra Dotta for Funding.**
  There are three types of funding which you might benefit from if you are undertaking an in-person summer school:
  - **TURING FUNDING** - to support living costs and in some cases, travel costs for summer schools with a minimum duration of 14 calendar days or longer
  - **NCL STUDENT FUND BURSARY** - to support with tuition fees for your summer school
  - **CLIMATE CONSCIOUS BURSARY** - to support with travel costs if you choose a more climate conscious method of travel to get to and from your summer school
  See the following pages for detailed information about funding

• **Apply to the partner institution.**
  The weblink to apply each individual partner is included in the brochure.
  **MAKE SURE YOU CHECK THE DEADLINE!**
Turing Funding

The Turing Scheme is a new UK government scheme which provides funding for international study and work opportunities.

All in-person summer school courses with a minimum duration of 14 calendar days listed in this brochure will be eligible for Turing Funding.

You can find more information about Turing Funding on our web pages:

https://www.ncl.ac.uk/mobility/experience-world/outgoing_funding/#turingfunding

You need to apply through Terra Dotta to receive Turing Funding to support your summer school placement.

Students who meet Turing Disadvantage criteria are also eligible to receive a contribution to their travel costs **

*See the full list of destination groups on the Turing scheme website.

** See the disadvantaged student criteria for enhanced rates eligibility.
The Newcastle Student Fund supports students to get ahead in the graduate job market and to benefit from the full Newcastle University experience, including international opportunities, through the generosity of our alumni.

We have a number of awards to offer students to support them with the cost of tuition fees at their chosen summer school.

- **ONLY Students who receive the NCL Opportunities Scholarship are eligible to apply for an award.**
- Funding rates will depend on personal circumstances and the summer school cost and will cover from 75-100% of tuition fees.
- Funding will be offered on a first come first serve basis, you can apply for funding in principle before applying to the partner summer school, so please apply as soon as possible if you would like to be considered for a NCL Student Fund Summer School Award.
- Students who receive the award will be requested to write a brief report outlining how the award has benefitted them.

You need to apply through Terra Dotta to be considered for the NCL Fund Summer School Award.
Climate Conscious Travel Bursaries

Newcastle University is committed to reducing its carbon footprint and has an ambitious target to achieve net zero carbon dioxide emissions, by 2030.

One of the most significant actions we can take is by considering the way which we travel and limiting the number of flights we take.

- The Global Opportunities Climate Conscious Travel Bursary offers financial support to students who choose a more climate conscious method of travel, such as the train or ferry.
- The Travel Bursaries will be offered on a first come first serve basis and will cover the actual costs of travel.*
- Students who receive the bursary will be required to provide receipts for travel and to provide a blog or vlog of their slow travel experience.

Click here to read our brief guide to climate conscious travel.

You need to apply through Terra Dotta to be considered for the NCL Climate Conscious Travel Bursaries.

Travel better, travel slow!

With more comfort, countryside views, stops in the city centre, and even the chance to meet new friends on the way, bus and train travel offers a way to see and experience more. Make your journey part of your trip!

*Please note that to avoid double funding, students who receive travel costs through the Turing Scheme will only be eligible to claim travel costs where they exceed the total received from the Turing travel allowance.
Questions?

If you have any questions or would like to discuss your options in more detail, please contact:
global.opportunities@newcastle.ac.uk

You can also contact our friendly team of Global Ambassadors for support – meet them at the drop-in or email them at:
global.ambassadors@ncl.ac.uk

Chat

If you’d like to chat in-person, we run weekly virtual drop-ins during term time from 3-4pm on a Wednesday afternoon via MS Teams. No appointment necessary - join here - we’d love to meet you!
Important Considerations

- In light of the Coronavirus pandemic, the war in Ukraine, and other global events some summer schools advertised may be subject to change and/or cancellation.
- Please be aware that registration fees paid to partner universities may be non-refundable.
- If your summer school is converted to virtual learning, please note that Turing funding will not be available for your placement.
- Please make sure you are aware of any Covid restrictions and entry requirements for the destination of your summer school.
- It is your responsibility to keep updated with entry requirements for your destination country.

*Please note that whilst every effort has been made to ensure that the information in this brochure is correct, partners may make changes to their programmes and we cannot guarantee the accuracy of all information. Please check on the partner website for up-to-date details.

**Please note that course fees have been converted to GBP from the original currency, actual costs may vary from those stated in the brochure according to fluctuations in exchange rates.
University of Vienna

16th July – 13th August 2022

City: Vienna

Click here for the Weblink

- It is one of the biggest economies in the world.
- The university is situated in the northwest part of South Korea on the Han River.
Virtual Summer Schools
Virtual Summer Schools

Virtual summer schools offer you the chance to take a short course with an international flavour without leaving home! Most courses offer the opportunity for social and cultural interaction as well as academic learning.

Note:

Please note that Turing Funding is not available for virtual placements.

If you are considering enrolling into a virtual exchange opportunity, please be aware that you need to be aware of time difference between your home and the delivery partner.

For example, if your Summer School module starts at 12pm in Mexico, it will be 7pm in the United Kingdom.
