Fossilisation & Innovation in Law

11th & 12th July 2016

Keynote speakers:

- **Prof Daniel Farber** -
UC Berkeley
- **Prof Karen Yeung** -
King's College London

Newcastle Law School invites you to join us for an exciting two day conference exploring both the *levers* of and *barriers* to change in diverse areas of law.

Leading national and international scholars will examine fossilisation and innovation across a breadth of areas, including:

- biomedicine
- digital technologies
- governance systems
- the environment
- finance & markets
- politics & social values

For more information and to register please use the QR code or visit our [events page](#)

Sessions include:

- I. Fossilisation & Ossification: Technology, Social Values, & Politics
- II. When Law Stagnates: Injustice & Inequity?
- III. Law's Resilience? Dynamic Change & Problems of Adaptiveness
- IV. Innovative Regulation & Regulating Innovations
- V. When Law Innovates: Unintended & Unforeseen Consequences?
