Sophie Pharmacology

“ My placement at Pfizer has been an invaluable experience, giving me opportunity to apply my pharmacological knowledge to a non-lab based role and a head start in developing essential skills for my future career. ”

<c`m BioWYa]gfm

“ Working within an office environment has given me an insight into the complexities of a multinational company. I've been lucky enough to travel to various places in Europe for business meetings and workshops; including Prague, Madrid and Malta! ”
