Home and international students on some School of Biomedical Sciences undergraduate programmes* are eligible to apply to transfer to Medicine or Dentistry after their first year of study.

*Please note that the Sports & Exercise Science and Human Food & Nutrition programmes are not eligible for this scheme.

Students will be selected on the basis of academic performance in the first year, their UKCAT score, a personal statement and, if shortlisted, an interview.

Transfer is into the first year of the Medicine or Dentistry course. A lecture timetabled in the December of your first year of study gives further information regarding both schemes.

The UKCAT score provided at application is used to rank students prior to interview.

Apply by January of your first year of study!

**How does it work?**

**Medicine**

Up to 7 places are available

**Academic Requirements:**

A minimum average mark of 75% across the Stage 1 modules

No less than 65% for any one module

**Further info**

In 2017-2018 68 students applied to transfer to Medicine. 17 were interviewed of which 7 received conditional offers subject to semester 2 results.

**Dentistry**

Up to 2 places are available

**Further info**

In 2017-2018 18 students applied for transfer to Dentistry. 3 were interviewed of which 2 received conditional offers subject to semester 2 results.

**IMPORTANT:**

You will need to provide evidence of a personal UKCAT score achieved within 2 years of commencing your Bioscience programme on application to the transfer scheme. Details of how to register and sit the UKCAT can be found at www.ukcat.ac.uk. It is your individual responsibility to have a UKCAT score ready at the time of transfer application.

The information on this sheet is correct at time of going to press but applicants should consult the MBBS website https://www.ncl.ac.uk/sme/study/undergraduate/admissions/biomed-transfer (General Information) and the BDS website https://www.ncl.ac.uk/dental/study/undergraduate (Dental Admissions Policy Document) for the most recent information before accepting a place in the School of Biomedical Sciences.
