School of Biomedical Sciences

Opportunities for student exchange around the world

Why do an International Exchange?
- Experience a different culture
- Broaden your perspectives on life & science
- Explore & make new friends
- Learn or improve your language skills

Between years 2 and 3 you have the opportunity to work in a research lab for 8 weeks between June and September or take a one year study abroad placement. Your could also complete Year 2 semester 2 abroad.

Where can I go?
- SINGAPORE, Nanyang Polytechnic
- AUSTRALIA, Monash University, Melbourne
- USA, Michigan State University
- MALAYSIA, NUMed, Johor
- USA, Illinois University

Final Year Research Project
Undertake your Stage 3 laboratory research project in Semester 2 at a partner university (3 month duration)

Where can I study?
- SWEDEN, Lund University
- GERMANY, Eberhard Karls Universitat Tübingen
- GERMANY, University of Münster
- NETHERLANDS, Leiden University
- FRANCE, Université Pierre et Marie Curie, Paris
- FRANCE, Université Paul Sabatier, Toulouse
- SPAIN, Universitat Pompeu Fabra, Barcelona

ERASMUS+ Research Project

Going on exchange to Monash was the most incredible experience and one I would recommend to anyone! It is a fantastic way to live and travel around a new country, experience different cultures and make great friends.

*We are always developing new exchange opportunities and so these may be subject to change*
