A101 interview threshold	2880	2040	2940	2920	2910

Please see our Admissions Policy for further information

The UCAT threshold changes each year for both programmes.

We cannot predict our UCAT threshold. It depends on the number of applicants, and the average score of applicants who apply to Newcastle.
Any national changes in scoring will change our threshold.

In order to widen access and encourage participation in Medicine by students from all backgrounds, we take account of contextual information and the threshold may vary for applicants who fulfil certain criteria.
