Expenditure

For detailed information about how we will treat your expenditure see the Student Financial Support Fund Policy and Supplementary Guidance: www.ncl.ac.uk/students/wellbeing/finance/hardship/studentfinancialsupportfund/overview.htm

Only enter the amount for the FULL academic year not weekly or monthly amounts.

- When estimating costs for items such as Food, Household, Clothes and Personal, Mobile Phone and Socialising / Entertainment & Leisure work out an estimated spend per week and multiply by the number of weeks in your academic year to calculate the amount for your full assessment period.

- Expenditure items marked with an * are figures included in a Composite Living Cost (CLC). The CLC depends upon your circumstances such as if you are a single student, live with a partner or have children; a fixed amount will be used when assessing your application. CLC’s ensure that all applications are treated fairly regardless of individual lifestyle choices.

- Mobile phone costs are usually included in the relevant CLC figure but where it is a necessity, such as if you have children, this cost will be factored in as a separate cost up to our agreed cap.

- Accommodation, travel, childcare and course costs will be capped taking into account local rates agreed by the University.

- Please explain (and provide evidence of) any Compulsory course related field trips in Part 10 of the form.

- You should include car insurance, maintenance, tax, repairs, MOT and running costs if you own and run a car. Costs associated with travel by car may be accepted as reasonable but only if you can demonstrate that your circumstances (e.g. young children, disability which affects mobility) mean that you require a car or that travel by car is cheaper for you than public transport. Normally single students will not be expected to own or run cars. Special circumstances should be detailed in Part 10 of the form.

- Do not enter debts owed to family or friends or full debt repayments in Essential Minimum Debt. Only the minimum repayments (e.g. interest payments) for any money owed should be entered in this box.

- If you incur childcare costs you must ensure that you include an estimate of these costs for your full assessment period as well as evidence from your childcare provider. Only consider costs incurred with registered childcare providers will be considered. Allowable childcare costs will be capped.

- If you will incur / have incurred additional travel costs due to unexpected circumstances (e.g. family illness / bereavement / personal illness) or to attend medical appointments, placement / graduate interviews please provide a breakdown of these costs in addition to your usual travel costs and any supporting evidence as it may be possible to factor some of these costs in to the assessment.

- If you will incur / have incurred additional 'start-up' costs you may wish to provide a breakdown and evidence of these as it may be possible to factor some of these costs in to the assessment. This may include situations such as having to move out of accommodation unexpectedly and relocating to a new property due to a significant breakdown in relations with family / partner / housemates or may be as a result of having a baby.
Part 10: In support of your application:

Please provide a supporting statement, as concisely as possible, explaining the reasons for your application and why you need support from the Fund including any exceptional circumstances.

Re-applications

Assessments for the Student Financial Support Fund are for the full academic year. Most students will only need to make one application in any academic year.

For any subsequent application you must show that your circumstances have changed significantly since your original application and be able to clearly demonstrate how your income and expenditure has changed. You should contact us to discuss your circumstances in the first instance if you think you need to reapply. If eligible for reassessment you will be given a reassessment application form. You may be asked to submit evidence to help determine your eligibility for reassessment. The decision to undertake a reassessment is at the discretion of the Student Financial Support Team. Where applicable, if you have failed to change your behaviour or have not acted on advice outlined in the outcome letter from your first application no reassessment will be undertaken.

Summer

Some undergraduate students, depending on their circumstances may reapply for assistance in the summer vacation by completing a summer application form if their previous application was not assessed over 52 weeks. You should contact the Team in the first instance to discuss your circumstances during the summer.

Appeals

If you think we have assessed your application incorrectly and not in line with our agreed policy you must request a review meeting before you can submit an appeal. A review meeting is less formal than an appeal and will give you the opportunity to discuss your application with a member of the Student Finance Support Team. You must attend a review meeting before submitting an appeal. Only one Review Meeting will be offered in any academic year.

If you would like to submit an appeal you should complete an appeals form which will be made available after your Review Meeting. You should submit an appeal within one month of receiving your letter of outcome. You will need to outline the reasons for your appeal and provide relevant supporting documentation. All applications are considered by the Manager of the Student Financial Support Team or the Director of the Student Health and Wellbeing Service. You should note that not liking the original outcome is not grounds for appeal.

If you need help to prepare an appeal, you can contact the Student Advice Centre for assistance. It would be helpful to take a copy of your original application with you when you meet your Adviser.
