

ACCOMMODATION: SWITCH OFF THIS CHRISTMAS

What is the switch off?

Newcastle University asks staff and students to switch off anything that can be switched off, so that we do not waste energy over the christmas break. This will help to reduce energy waste in our attempt to be net zero by 2030.

What can residents switch off?

- Lights
- Empty fridge and freezers
- Kettles
- Toasters
- TVs
- Game consoles

Scan the code to check out our sustainability [blog](#). Keep an eye out for the switch off blog post in December!
