ENGAGEMENT PLAN 2022/23

Aim

Empowering and motivating the community and external stakeholders through effective engagement.

How?

Communicating sustainable advancement at the institutional level and encouraging learning and knowledge sharing around this [large-scale] progress.

Encouraging sustainable behaviour on an individual level and facilitating networking to bring people together for support.

Collaborating with colleagues, students and external partners to create change.

We aim to deliver, promote and communicate 'system change' and 'behaviour change' as interrelated and vital parts of an overall benefit towards environmental and social justice.

Targets include:

- Evolution of action programmes and development of networks to support these
- Implementation and enhancement of committee activity
- Delivering induction information to new students and colleagues
- Assessing and reporting on progress

ENGAGEMENT PLAN 2022/23

MONTHLY THEMES

Each month of the year has an overarching theme as a focus.

Within each month there will be campaigns or activities for that month's focus, with some interweaving content alongside them and throughout the year.
