## Sustainability on campus

Newcastle University is committed to tackling the climate crisis. We were one of the first universities in the UK to declare a climate emergency and have set ourselves the target of net-zero carbon dioxide emissions by 2030. Our [Climate Action Plan](#) outlines the action to be taken in response to the climate crisis, as part of the University's commitment to social and environmental justice.

Sustainability action at Newcastle University involves all areas of our activity, and all community members can play their part. The University couldn't reach its sustainability goals without the actions of colleagues and students and we would like to describe some key ways that you can get involved.

### Sustainability for students

Video duration 3:14 minutes

[Student Sustainability and Climate Action video transcript \(PDF\)](#)

### Travel

Travelling by walking or cycling is a great way to reduce greenhouse gas emissions.
