## How to check your submission

Once you submit your assignment **you will not automatically receive a submission receipt**. It is up to you to ensure that you've submitted the correct file by the deadline.

To do this, we'd recommend checking you can see the 'Submitted!' notification. This also lists the time you submitted.

Remember that even if this shows that you've submitted on the hour (for example at 15:00) this may still be classed as late as anything received 15:00.01 or later is classed as late.

Another precaution you can take is to **download the document** you submitted. This means you can double-check that you submitted the correct document.
