Author: Gary Morton, Out of Hours Task and Finish Group - Design Principles Out of Hours Study Spaces September 2016

Location	Essential	Desirable
Located within reasonable travel distance (more work needed to establish reasonable distance)	X	
For personal safety reasons routes to the building must be signposted, adequately lit and monitored by CCTV	X	
Doors into buildings must be smart card controlled to minimise the opportunity for unauthorised access outside normal hours	Х	
The facility and routes to the building and the rooms within should be fully inclusive	Х	
Ground floor rooms should be used in preference to rooms on upper floors (unless fire evacuation lifts and management support are available).	Х	
Bicycle storage should be provided close by		Х
A system for monitoring the safety of out of hours lone workers/students must be implemented, management arrangements or software/hardware.	Х	
Secured from the rest of the building	Х	
Equipped with CCTV (if not manned)		Х
Telephone landline (Security and 999 only if possible)	Х	
Facilities	Essential	Desirable
Where possible there should be a combination of quiet spaces, separate general PC workstations and collaborative team working areas	Х	
AV		Х
Appropriate and accessible software combinations	Х	
Printers	Х	
Wifi	Х	
Power sockets (including USB) for charging tablets, laptops and phones	Х	
Welfare	Essential	Desirable
Male, female and accessible toilets must be located close to the space and on the same floor to prevent unnecessary travel through buildings.	Х	
Drinking water should be available close by.		Х
Vending machine(s).		Х
Bins	Х
