

SFW (STUDENT FINANCE WALES) MAINTENANCE FUNDING 2022/23

If you've been 'normally resident' in Wales for the 3 years prior to starting your course and don't have any previous HE study then you should be entitled to a full Tuition Fee Loan from **Student Finance Wales** for the length of your course, as well as a Maintenance Loan and Grant to help you with your living costs whilst you study.

"Normally resident" means residency whilst not in HE study with indefinite right to remain in the UK

What can I get?

You'll receive a total of **£10,710** living in Newcastle during your studies. You'll also receive a Tuition fee loan for the total cost of your fees, regardless of your household income.

Why apply for a Household Income Assessment?

How much of this funding you receive as **Loan** and how much you receive as a non-repayable **Grant** depends on your parents' household income in the 2020/21 tax year.

What else should I know?

- Whilst your Tuition Fee Loan will be paid directly to your University, your Maintenance Loan and Grant is paid directly to your bank account in **3 instalments** across the academic year, in **September, January** and **April**.
- If you already hold a HE qualification you may not be eligible.
