# TRANSCRIPT OF STUDY

Example Student

University HESA Reference Number: 0154

## Student Details

Name **Example Student**  
Date of Birth **16th November 2002**  
University Student Number **234567890**  
Student HESA Number **23456789101**

## Programme of Study

### G100 BSc Honours Mathematics

*Studied From* September 2021 *To* Still pursuing study

## Module Details

### Academic Year 2021/22

G100 BSc Honours Mathematics Stage 1 studied in full time mode.

Module Code	Module Title	Semester of Study	Module Credits	Mark	Module Status	Attempts
MAS1605	Introduction to Calculus	Semester 1	20	63	Pass	1
MAS1606	Introductory Algebra	Semester 1	20	56	Pass	1
MAS1701	Logic, Sets and Counting	Semester 1	10	72	Pass	1
MAS1803	Problem Solving with Python	Semester 1	10	69	Pass	1
MAS1607	Multivariable Calculus & Differential Equations	Semester 2	20	#	Decision delayed	1
MAS1608	Introduction to Probability & R	Semester 2	20	71	Pass	1
MAS1702	Number Systems	Semester 2	10	#	Deemed to have passed	1
MAS1902	Dynamics	Semester 2	10	62	Pass	1

**End of stage decision:** Permitted to Proceed

The University certifies that the above named student attended this course of study and achieved the results indicated above. The programme, approved by the University of Newcastle upon Tyne, was taught and assessed in English.

---

**Explanation of codes used:**

**Module Credits:** Undergraduate programmes normally comprise c.120 credits per academic year and postgraduate programmes normally comprise c.180 credits.

**ECTS Credit:** There is an equivalence between Newcastle credit and ECTS Credit - e.g. 20 Newcastle credits = 10 ECTS, 10 Newcastle = 5 ECTS.

**Marks:** The Newcastle mark is a mark out of 100. The pass mark for undergraduate level modules is 40. The pass mark for postgraduate level modules is 50.

**Module Status:** In accordance with the University regulations a Board of Examiners may allow a student to proceed on a degree programme with marks below the pass mark. In such cases, the module status 'Pass at BoE's Discretion' or 'Pass by compensation' will be shown.

Where the module status 'Deemed to have passed' is used this indicates that unusual circumstances outside of the candidate's and the University's control prevented assessment. The candidate is deemed to have passed the module.

The module status 'Decision delayed' is used where exceptional circumstances have caused delayed assessment or the late availability of marks.

**Number of Attempts:** Where a student passes at a second or third attempt the actual mark achieved is shown, but a mark of 40 for undergraduate level modules or 50 for postgraduate level modules is used for academic progress and classification purposes.

**End of stage decision:** A Board of Examiners' decision regarding a student's academic progress, or in the case of final year the overall degree classification.
