

Programme Regulations 2024/25

Programme Title: Degree of Master of Physics with Honours (Physics with Astrophysics) - UCAS

Code: F3FM

Programme Title: Degree of Master of Physics with Honours in Physics with Astrophysics with

Placement Year - Code: 1558U

Notes

(i) These programme regulations should be read in conjunction with the University's Undergraduate Progress Regulations and Examination Conventions.

(ii) All optional modules are offered subject to the constraints of the timetable and to any restrictions on the number of students who may be taught on a particular module. Not all modules may be offered in all years and they are listed subject to availability.

(iii) Unless otherwise stated under 'Type', modules are not core.

(iv) A compulsory module is a module which a student is required to study.

(v) A core module is a module which a student must pass, and in which a fail mark may neither be carried nor compensated; such modules are designated by the board of studies as essential for progression to a further stage of the programme or for study in a further module.

(vi) All modules are delivered in Linear mode unless stated otherwise as Block, eLearning or distance learning.

(vii) Students are not recruited to 1558U. Rather a F3FM candidate may transfer to 1558U by the end of week 5 of Semester 2 of Stage 3, subject to the agreement of the Degree Programme Director.
