Euro-Visions: a series of Postgraduate Cultural Cafés

All postgraduate students at Newcastle University are welcome to join this Cultural Café to share ideas, celebrate European cultures and enjoy European food.

From the Salon of the French Enlightenment to the Kaffeehaus of turn-of-the-century Vienna, many informal forums across Europe have allowed people to gather, exchange ideas, and enjoy culture. As philosopher Jürgen Habermas argued, this tradition forms a vital public sphere which is necessary for democracy in Europe.

Through this series, we hope to create a public sphere on campus which unites academic, social, civic and cultural interests.
