**10 Programme Aims**

To provide a programme which:

1. equips international students with the English language competence they need to study at Certificate level at Newcastle University or in another UK HEI
2. provides students with the intellectual development they need to be academically capable of studying business subjects at Certificate Level at Newcastle University or in another UK HEI
3. builds up students' study skills so that they are capable of entering UK HE, whilst also helping them to get accustomed to student life in the UK
4. provides practical experience of British university teaching methods
5. provides sufficient appreciation of British life, institutions and culture for both studying and living in the UK
6. enables students to develop confidence in communicating with native speakers
7. encourages students to undertake self-evaluation to help them analyse their progress
- 8 aims to comply with University and QAA codes of practice.

**11 Learning Outcomes**

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas.

**Knowledge and Understanding**

On completing the programme students should:

- A1 have a basic knowledge and understanding of many aspects of British institutions and culture
- A2 understand some basic aspects of business in the UK
- A3 have an in-depth understanding of a chosen (project or option) topic
- A4 have an appreciation of the culture of UK higher education and its expectations of students
- A5 have an understanding of English grammar and vocabulary, including the conventions of academic English
- A6 understand the basic requirements for writing a competent essay or report

**Teaching and Learning Methods**

Knowledge and understanding is primarily taught through lectures supported by reading, seminar discussion and tutorials. English is primarily taught in smaller classes and reinforced through practice. The final project involves a large element of student research.

**Assessment Strategy**

Knowledge and understanding is assessed primarily through written coursework and tests,

but also through presentations and the project.

### **Intellectual Skills**

On completing the programme students should be able to:

- B1 Use and interpret data
- B2 Evaluate arguments and evidence in written/spoken texts
- B3 Read academic texts with some degree of analytical skill
- B4 Argue a case orally or in writing
- B5 (where required) Use quantitative techniques related to business issues

### **Teaching and Learning Methods**

These skills are best taught and learned through practice, although the Study Skills module will provide students with advice on what is expected of UK students and strategies for developing these skills. The final project in particular reinforces B1- B4.

### **Assessment Strategy**

The final project provides a key piece of assessment of the development of intellectual skills, but so do other pieces of coursework and oral presentations. The Study Skills and Project module will assess B1 to B4 in particular. The Maths for Business module (optional for some, compulsory for others depending on the destination degree) directly assesses B5.

### **Practical Skills**

On completing the programme students should be able to:

- C1 Develop strategies for effective note taking in lectures and seminars
- C2 Read and take notes from an academic text
- C3 Take part in a discussion in a seminar or tutorial context
- C4 Write an essay or report in an academic context in understandable English following the conventions of essay or report writing.
- C5 Present ideas and arguments in a clear and logical manner in written and oral English
- C6 Apply proper referencing and other aspects of good academic practice

### **Teaching and Learning Methods**

The Study Skills and Project module will deliver C1, but the lessons learned will be reinforced in all the other modules. The English language skills will be taught through the English for Academic Purposes module largely through small group teaching with plenty of practice. However, every other module will also use and reinforce these skills. Not only will students be taught how to develop these skills, but the academic modules will provide opportunities to put these skills into practice. C6 will be taught through the Study Skills and Project module, and in some of the EAP modules.

### **Assessment Strategy**

English language competency will be tested directly on an IELTS equivalent basis in the English for Academic Purposes module using a mixture of tests and coursework and covering reading, writing, speaking and listening. Other modules will indirectly assess English language competence and the ability to take notes and use sources, as they all require an ability to express ideas in English.

### **Transferable/Key Skills**

On completing the programme students should be able to:

- D1 work as a member of a team with colleagues from other backgrounds and cultures
- D2 make oral presentations
- D3 use IT skills effectively
- D4 manage their time effectively
- D5 use library and information sources effectively
- D6 think and work effectively on their own when required
- D7 communicate effectively with native speakers
- D8 analyse their own strengths and weaknesses and take action accordingly

|  |
|--|
| <b>Teaching and Learning Methods</b>   |
| The Study Skills and Project module's lectures will introduce students to these key skills and provide guidance on techniques, with practice occurring largely in the other modules and in small group teaching on the Study Skills and Project module.  |
| <b>Assessment Strategy</b>   |
| Some groupwork is required and students' success in working in teams will therefore be assessed via the quality of the end product. Several assessed oral presentations are built into the module. D3-D6 will be assessed via coursework assessment and in particular through the project. The study skills module will also assess teamwork and essay writing. D7 will be facilitated through the Study Skills and Project module which requires attendance at an undergraduate module. It will also be developed through the EAP modules and through extra-curricular activities. D8 will be developed particularly via the Study Skills and Project module. |

## **16 Regulation of assessment**

### *Pass mark*

#### *Academic modules*

Modules will be marked on a 0-100 scale. The pass mark for academic modules is 40. The following forms of assessment may be used: class tests, seen and unseen examinations, coursework, oral tests, presentations, group-work.

#### *English for Academic Purposes*

These modules are internally assessed, using Newcastle's English Language Proficiency Scale (and benchmarked against IELTS). Modules will be marked on a 0-90 scale with 50 being equivalent to IELTS 5.0, 60 equivalent to IELTS 6.0, 65 equivalent to IELTS 6.5, etc. The pass mark for the English for Academic Purposes modules is 60.

Satisfactory completion of the Foundation Certificate requires that:

- (a) the average mark over all academic modules, taking due account of the credit value, is not less than 40;
- (b) no single mark for any academic module is below 35;
- (c) marks of less than 40 are compensated in academic modules, provided the total credit value of these modules does not exceed 20;
- (d) the average mark for English for Academic Purposes is not less than 60 (equivalent to IELTS 6.0) with no competence (reading, writing, listening and speaking) below 55
- (e) no compensation for English for Academic Purposes is permitted

A student who fails a module will be able to have one further attempt to achieve a pass for that module. Students will not be permitted to proceed to a degree programme at Newcastle University carrying a failure in any module.

Performance higher than a basic pass (in both academic modules and English for Academic Purposes) will be required for entry into Newcastle University degree programmes as specified in the progression requirements for specific degree programmes.

### *Marking Scheme*
