

PROGRAMME SPECIFICATION

1	Awarding Institution	Newcastle University
2	Teaching Institution	Newcastle University
3	Final Award	Diploma in Planning & Urban Design; European Spatial Planning; Planning & Regeneration; Environmental Planning
4	Programme Title	Diploma in Town Planning
5	UCAS/Programme Code	K496
6	Programme Accreditation	Royal Town Planning Institute
7	QAA Subject Benchmark(s)	
8	FHEQ Level	H
9	Date written/revised	07/08

10 Programme Aims

Developing from an undergraduate degree in planning, the programme aims to:

1. develop an understanding of the values and ethics of working as a professional
2. enable students to develop depth of knowledge and/or skills in particular areas of town planning, underpinned by current and relevant research
3. develop both transferable and professional skills
4. develop research skills
5. allow students the possibility of spending one semester in another European country (not Diploma Town Planning – Planning & Urban Design route)
6. meet the professional requirements of the Royal Town Planning Institute
7. meet the appropriate criteria as laid down in the QAA's National Qualifications Framework
8. comply with University policy and QAA Codes of Practice
9. introduce students to professional practice and to obtain practice experience

11 Learning Outcomes

The programme provides opportunities for students to develop and demonstrate knowledge and understanding, qualities, skills and other attributes in the following areas. The programme outcomes have references to the benchmark statements for (subject) (X).

Knowledge and Understanding

On completing the programme students should:

- A1. Demonstrate understanding and critical thinking of planning as a form of action concerned with managing and creating space and place
- A2. Evaluate arguments for planning as a form of action within processes of change
- A3. Demonstrate an understanding of planning as a social science discipline and as a discipline that integrates concern with design and place, economic issues relating to development, environmental challenges and legal and institutional frameworks
- A4. Demonstrate an understanding of the political nature of decision-making in planning and the significance of diversity issues, stakeholder involvement and rights in the planning process
- A5. Demonstrate an understanding of the complexities of planning issues and problems and be able to integrate different areas of the curriculum
- A6. Demonstrate an understanding of theory and make appropriate connections between theory and practice.
- A7. Demonstrate a critical understanding of values, ethics and professionalism in planning
- A8. Demonstrate depth of knowledge in selected areas of planning

Teaching and Learning Methods
The primary means of conveying knowledge and understanding is through lectures (A1-8). The general use of 2 hour teaching blocks enable these lectures to be interactive and often in workshop or seminar mode. In addition A2, 5 & 8 are taught partly through project work with students working on specific planning problems. Throughout the programmes the students are expected to supplement their classroom work with independent reading. The programme is mostly supported with material on Blackboard. In attaining A2, 3, 5 & 8 Diploma students undertake independent research with appropriate supervision from staff.
Assessment Strategy
Knowledge and understanding of subject are tested in a variety of ways. Generally these are assessed through course work or written examination (A1–8). In most cases there is one major assessment (coursework or examination) per module; Course work tests ability to research and reflect on material often gained largely in private study while examinations test ability to bring together material from the whole module in succinct arguments.
Intellectual Skills
On completing the programme students should be able to: B1. Define and analyse problems effectively and appropriately B2. Make effective use of evidence and information B3. Articulate reasoned arguments B4. Develop research skills and experience in the context of the school's research interests B5. Evaluate arguments for planning as a form of action within processes of change B6. Demonstrate a critical understanding of values, ethics and professionalism in planning
Teaching and Learning Methods
Cognitive skills are developed through research projects (B1 & 4); supervisions (B1, 3 & 4); group project work (B2); seminars (B5 & 6) and teaching of computer packages for analysis (B2). Diploma students are expected to undertake independent research having framed their own research questions, and work with professionals and specialists on some modules (B5 & 6). The emphasis in cognitive skill development is to learn by doing.
Assessment Strategy
Cognitive skills B1–6 are largely assessed through course work including essays and reports (B1-2 & 5-6), project work based on field work (B4); group presentations (B2); seminar papers (B 3 & B6). B3 is also tested by written examination.
Practical Skills
On completing the programme students should be able to: C1. Formulate and propose cogent policies, strategies and course of action as responses to planning problems C2. Evaluate and effectively utilise a variety of plan and policy making methods and processes
Teaching and Learning Methods
Subject specific skills are introduced and developed through project work where students work in teams to solve problems and present ideas for action (C1-2). Students are encouraged and expected to undertake field-work to develop their skills.
Assessment Strategy
These skills are tested in project work presentations and coursework.
Transferable/Key Skills
On completing the programme students should be able to: D1. Effectively and fluently communicate information, ideas, principles, arguments and proposals through written, graphic, oral and electronic means; and demonstrate effective written, numeric, oral, IT and information literacy skills. D2. Work effectively both individually and in groups D3. Develop personal self-management skills such as setting priorities and time management
Teaching and Learning Methods
Transferable skills are well embedded in the programme and are taught and developed in seminars and project work (D1, 2 & 3). In addition the ability to work effectively in groups is developed through project work and seminars. This development of transferable skills is encouraged through course work (D1, 2 & 3) and through group activities such as project work.

Assessment Strategy

D1&2 are primarily assessed through, essay writing, report writing, seminar papers, oral presentations, application of statistical tests to problems, and in some instances by examination. D2 is assessed through project work (including peer evaluation of group projects) and group presentations.

12 Programme Curriculum, Structure and Features**Basic structure of the programme**

The Diploma in Town Planning is a one year course which builds on core knowledge and skills developed during a three year undergraduate programme and a year in practice with additional coursework (Certificate of Planning Practice). The Diploma consists of 120 credits, which may also be undertaken on a part-time basis.'

Within this overall framework, the Diploma in Town Planning takes the form of one of a number of named specialist programmes. Candidates take one of the combinations of modules listed below.

Information on the programming of the following modules can be found in the programme handbook.

(a) Diploma in Planning and Urban Design

<i>Code</i>	<i>Credits</i>	<i>Descriptive Title</i>
TCP7024	10	Urban Design & Conservation
TCP8032	10	Communications
TCP8052	10	Urban Design Seminars
TCP8045	30	Urban Design Project 1
ARC8063	20	Urban Design Project 2
ARC8065	20	European Study Visit: City & Culture
ARC8040	10	Contemporary Issues in Urban Design
TCP8902	10	Reflexive Practitioner

(b) Diploma in European Spatial Planning

<i>Code</i>	<i>Credits</i>	<i>Descriptive Title</i>
TCP8089	10	European Placement Preparation
TCP7026	60	European Research Project
TCP8915	20	Spatial Planning Theory & Practice
TCP8916	20	Urban & Regional Development Planning
TCP8902	10	Reflexive Practitioner

(c) Diploma in Planning and Regeneration

<i>Code</i>	<i>Credits</i>	<i>Descriptive Title</i>
TCP8922	30	Delivering Regeneration
TCP8025	30	Linked Research Project
TCP8026	30	Consultancy Project
TCP8902	10	Reflexive Practitioner

Further modules to a value of 20 credits selected, with the consent of the Degree Programme Director, from a list of options specified in the Diploma Programme Handbook.

(d) Diploma in Environmental Planning

<i>Code</i>	<i>Credits</i>	<i>Descriptive Title</i>
TCP8923	30	Planning for Sustainability
TCP8025	30	Linked Research Project*
TCP8026	30	Consultancy Project
TCP8902	10	Reflexive Practitioner

*students can alternatively take LAW8047 *Planning Law and Environmental Impact Assessment* with the consent of the Degree Programme Director

Further modules to a value of 20 credits selected, with the consent of the Degree Programme

Director, from a list of options specified in the Diploma Programme Handbook.

(e) European Exchange Option

Students undertaking specialist programmes in *Planning and Regeneration* or *Environmental Planning* may, with the agreement of the Degree Programme Director, include in their programme of study one semester of study at a Socrates/Erasmus partner university. In that case the programmes of study will be as follows:

Planning and Regeneration

Code	Credits	Descriptive Title
TCP8922	30	Delivering Regeneration
TCP8089	10	European Placement Preparation
TCP7026	60	European Research Project
TCP8902	10	Reflexive Practitioner

Further modules to a value of 10 credits selected, with the consent of the Degree Programme Director, from a list of options specified in the Diploma Programme Handbook

Environmental Planning

Code	Credits	Descriptive Title
TCP8923	30	Planning for Sustainability
TCP8089	10	European Placement Preparation
TCP7026	60	European Research Project
TCP8902	10	Reflexive Practitioner

Further modules to a value of 10 credits selected, with the consent of the Degree Programme Director, from a list of options specified in the Diploma Programme Handbook.

Key features of the programme (including what makes the programme distinctive)

The programme taken is dependent on the route taken, with TCP8902 The Reflexive Practitioner being the only module consistent across all routes. The emphasis is on enabling students to develop their own specialist planning knowledge and skills in selected area(s) of study. This is possible through the specialist modules of the individual routes, through the student centred modules (particularly on the *European Planning Route*, and *European Exchange* options) and through the students' chosen options. Within the *Planning and Regeneration* route and the *Environmental Planning* route students are also able to specialise through the TCP8025 Linked Research Project and TCP8026 Consultancy Project.

Distinctive features of Newcastle's Diploma are that

- The Diploma builds on a 3 year undergraduate degree and a year spent in planning employment
- Students continue to have opportunities to work directly with practitioners through the Consultancy Project.
- Students have the ability to specialise in their knowledge and expertise through the individual programme routes they can choose and the variety of options and choices they are given.
- Students have the opportunity to work in an interdisciplinary way with other students in related professions through the options they choose.
- Students have the opportunity to study abroad through the European Exchange and *European Planning* routes.

Programme regulations (link to on-line version)

13 Criteria for admission

Entry qualifications

a) Entry into the Dip TP Programme is offered to all who complete the Newcastle BA (Hons) Town Planning with at least a lower second class honours Degree, and a pass in the

Certificate of Planning Practice.

b) Holders of other RTPI accredited degrees may be accepted on to the programme. However, any such transfer must be approved in advance by the RTPI, to assure accreditation.

Admissions policy/selection tools

Non-standard Entry Requirements

Additional Requirements

Level of English Language capability

14 Support for Student Learning

Induction

During the first week of the first semester students attend an induction programme. New students will be given a general introduction to University life and the University's principle support services and general information about the School and their programme, as described in the Degree Programme Handbook. New and continuing students will be given detailed programme information and the timetable of lectures/practicals/labs/ tutorials/etc. The International Office offers an additional induction programme for overseas students.

Study skills support

At this level this is not considered to be usually necessary. However support is given on a case by case basis and students are explicitly tutored on their approach to both group and individual project within modules: e.g. small groups and individuals meet with the project leader on the Link Research Project.

Academic support

The initial point of contact for a student is with a lecturer or module leader, and academic staff encourage all students to make appointments to discuss their work, or to discuss it via email. Certain elements of the programme e.g. projects are run with intensive contact between staff and students.

For more generic issues students can contact their tutor (see below). Thereafter the Degree Programme Director or Head of School may be consulted. Issues relating to the programme may be raised at the Staff-Student Committee, and/or at the Board of Studies.

Pastoral support

All students are assigned a personal tutor whose responsibility is to monitor the academic performance and overall well-being of their tutees. In addition the University offers a range of support services, including one-to-one counselling and guidance or group sessions/workshops on a range of topics, such as emotional issues eg. Stress and anxiety, student finance and budgeting, disability matters etc. There is specialist support available for students with dyslexia and mental health issues. Furthermore, the Union Society operates a Student Advice Centre, which can provide advocacy and support to students on a range of topics including housing, debt, legal issues etc.

Support for students with disabilities

The University's Disability Support Service provides help and advice for disabled students at the University - and those thinking of coming to Newcastle. It provides individuals with: advice about the University's facilities, services and the accessibility of campus; details about the technical support available; guidance in study skills and advice on financial support arrangements; a resources room with equipment and software to assist students in their studies.

Learning resources

The University's main learning resources are provided by the Robinson and Walton Libraries (for books, journals, online resources), The school has its own dedicated space within the Robinson Library.

Students have access to campus-wide computing facilities supported by Information Systems and Services.

All new students whose first language is not English are required to take an English Language Proficiency Test. This is administered by INTO Newcastle University Centre on behalf of Newcastle University. Where appropriate, in-session language training can be provided. The INTO Newcastle University Centre houses a range of resources which may be particularly appropriate for those interested in an Erasmus exchange.

15 Methods for evaluating and improving the quality and standards of teaching and learning

Module reviews

All modules are subject to review by questionnaires which are considered by the Board of Studies. Changes to, or the introduction of new, modules are considered at the School Teaching and Learning Committee and at the Board of Studies. Student opinion is sought at the Staff-Student Committee and/or the Board of Studies. New modules and major changes to existing modules are subject to approval by the Faculty Teaching and Learning Committee.

Programme reviews

The Board of Studies conducts an Annual Monitoring and Review of the degree programme and reports to Faculty Teaching and Learning Committee.

External Examiner reports

External Examiner reports are considered by the Board of Studies. The Board responds to these reports through Faculty Teaching and Learning Committee. External Examiner reports are shared with institutional student representatives, through the Staff-Student Committee.

Student evaluations

All modules, and the degree programme, are subject to review by student questionnaires. Informal student evaluation is also obtained at the Staff-Student Committee, and the Board of Studies. The National Student Survey is sent out every year to final-year undergraduate students, and consists of a set of questions seeking the students' views on the quality of the learning and teaching in their HEIs. With reference to the outcomes of the NSS and institutional student satisfaction surveys actions are taken at all appropriate levels by the institution.

Mechanisms for gaining student feedback

Feedback is channelled via the Staff-Student Committee and the Board of Studies.

Faculty and University Review Mechanisms

The programme is subject to the University's Internal Subject Review process. Every five years degree programmes in each subject area are subject to periodic review. This involves both the detailed consideration of a range of documentation, and a two-day review visit by a review team which includes an external subject specialist in addition to University and Faculty representatives. Following the review a report is produced, which forms the basis for a decision by University Teaching and Learning Committee on whether the programmes reviewed should be re-approved for a further five year period.

Accreditation reports

- a.) The course is subject to the professional accreditation process to gain RTPI professional accreditation
- b.) As part of an RTPI accredited course, there are two external examiners include one academic and one practitioner.

Additional mechanisms

Include

- a.) the course being reviewed through the Annual Planning Advisory Group composed of regional practitioners:

- b.) Year group meetings
- c.) Reflections of module leaders and meetings of teaching staff/ programme management team

16 Regulation of assessment

Pass mark

The pass mark is 50

Course requirements

All modules must be passed. One resubmission per module is allowed.

The final award of Diploma is based on a simple percentage, weighted on credits. It may be passed with Distinction or Merit.

<i>Mark</i>	<i>Degree category</i>
70%+	Distinction
60-69%	Merit
50-59%	Pass
less than 50%	Fail.

Role of the External Examiner

An External Examiner, a distinguished member of the subject community, is appointed by Faculty Teaching and Learning Committee, after recommendation from the Board of Studies.

The External Examiner is expected to:

- See and approve examination papers
- Moderate examination and coursework marking
- Attend the Board of Examiners
- Report to the University on the standards of the programme

In addition, information relating to the programme is provided in:

The University Prospectus (see <http://www.ncl.ac.uk/undergraduate/> or <http://www.ncl.ac.uk/postgraduate/>)

The School Brochure (contact enquiries@ncl.ac.uk)

The University Regulations (see <http://www.ncl.ac.uk/calendar/university.regs/>)

The Degree Programme Handbook

Please note. This specification provides a concise summary of the main features of the programme and of the learning outcomes that a typical student might reasonably be expected to achieve if she/he takes full advantage of the learning opportunities provided. The accuracy of the information contained is reviewed by the University and may be checked by the Quality Assurance Agency for Higher Education.
